Make sure you have the correct licensing for Microsoft software

Visit the Microsoft website and you will find additional information that you can consider when purchasing Microsoft software.

Software Solutions

Starting 1999, Q'NET delivers software solutions for companies in Romania; all these applications have as main requirement the reduction of all the resources associated with the organizational processes.

Q'Assist apps are developed on Microsoft SharePoint as a platform for shared access, interaction and collaboration. Teamwork can be done anywhere and anytime, quickly, reliably and safely.

Q'assist CONTRACTS BASIC PREMIUM — CONTRACTS MANAGEMENT	Q'assist FORMS — ONLINE FORMS: QUICK AND EASY	Q'assist COMMITTEE — ARCHIVE DECISIONS OF THE BOARD	Q'assist AUCTIONS — AUCTIONS MANAGEMENT
It ensures the management of contracts (with customers and / or suppliers), quickly and easily, under confidentiality conditions. 100% data accuracy.	The app gives you immediate and quick access to the information and it significantly reduces the expenses with distribution, printing and storage of the documents.	The app helps you structure, control and archive decisions within the company you run.	Team members have simultaneous, real-time access to information and can interact with efficiency while they prepare to bid.

Ask for DEMO

The software solutions developed by Q'NET can perfectly integrate with applications within your company, but do not replace the functionality of an ERP application.

Q'NET respects 100% customer requirements and the developed software solutions are the result of a joint effort, completely covering the needs for which they were created.

The more complex the need for technology, the more important is the experience of the IT provider. Consider this when you want to save time and money.
